

600 SERIES

Hot Water Heaters

Power Eagle hot water heaters are industrial strength heaters. The 600-Series has a highly efficient schedule 80 coil, fuel efficient combustion chamber and a cad cell flame sensor. A watertight ignition transformer adds to safety and a heavy duty steel frame will keep this heater in place. For efficiency, safety and quality there's no better water heater than the Power Eagle 600-Series.

FEATURES

- Efficient Schedule 80 Coil
- Fuel Efficient Combustion Chamber
- High Limit Temp. Control
- Watertight Ignition Transformer (Oil Fired Models)
- Electronic Ignition (Models 650/660)
- Stainless Steel (Models 625-665)
- Heavy Duty Tubular Steel Frame
- Heavy Duty Legs (Stationary Models)
- Pneumatic Tires (portable Models 610/615)
- Automotive Quality Powdercoat Finish
- 50' Wire Braid High Pressure Hose (Only 610)
- High Pressure Flow Switch (Model 610)
- Adjustable Temp. Control (Model 610)

SPECIFICATIONS

Model	GENERAL			DIMENSIONS/WEIGHT			
	Volt	Fuel	BTU	L	W	H	LBS.
610	115V	Oil	350,000	40"	28"	36"	235
615	115V	Oil	480,000	43"	28"	36"	285
625	115V	Oil	350,000	24"	24"	48"	250
635	115V	Oil	480,000	24"	24"	48"	300
655	115V	Oil	577,000	30"	30"	64"	450
665	115V	Oil	1,200,000	36"	36"	84"	1140
620	115V	NG/LP	350,000	26"	24"	48"	250
630	115V	NG/LP	440,000	24"	24"	48"	325
640	115V	NG/LP	480,000	24"	24"	51"	350
650	115V	NG/LP	680,000	30"	30"	64"	450
660	115V	NG/LP	1,200,000	36"	36"	84"	980

OPTIONS

- Adjustable Thermostat (Gas)
- Adjustable Thermostat (Oil)
- GeniSys Burner Control
- Oil Fuel Tank
- 12 Volt (No GFCI Included. Adjustable Temp Control Required)
- Draft Diverter
- Model 610 comes Standard With 50' Hose & Temp Control
